

Abrasive & Armex Soda Blasting for Councils/Mining/Industrial/Civil/Marine Industries

Armex Soda Blasting is the ideal for turnaround situations. Critical service cleaning is accomplished quickly & efficiently, even in tight areas. Clean & strip in the process area using our non-sparking Armex Blast Media System, thus reducing the need to shut down the work area. A great deal of production & maintenance time can be saved. Armex Blast Media can also achieve a Class 2½ Finish with a Profile Formula Media. **Abrasive Blasting** is ideal for Industrial Coating work. This is designed for New Steel, Whip blasting, Full Blasting, Heavy Rust Removal, Feathering etc. On average profile heights vary between 50-90µm (microns) thus meeting painting specifications
